

Build Your Own Advocacy Community with Friends Committee on North Carolina Legislation (FCNCL)

The power of our grassroot advocacy comes from each person's commitment to changing legislation for the better -- and the knowledge that we're stronger together.

Working as a community allows us to accomplish more. We pool each F(f)riend's unique set of skills, passions, interests and life experiences to amplify the team's knowledge and capacity. FCNCL will provide you with resources and training to help you.

If you would like to learn more about how you can effectively witness as a Quaker advocate, we invite you to register to join the following workshops with Piedmont Friends Yearly Meeting
